

Online Appendix for: Supportive Management Practice and Intrinsic Motivation Go Together in the Public Service (*PNAS*, 2021)

Dan Honig

February 6, 2021

This online appendix provides additional information on the analysis provided in the main paper. Tables A1-A7 below present summary statistics separately for each dataset used in the analysis.

The following summary statistics tables further break down the mean values in Tables 3 and 4 of the main document by individual surveys.

Table A1: Summary statistics: United States FEVS responses (agency level data)

Variable	Obs	Mean	Std. Dev.	Min	Max
Intrinsic Motivation	1709	4.212	.103	3.806	4.671
Autonomy	1709	3.219	.216	2.158	4.183
Adequate resources	1709	3.285	.216	2.444	4.208
Career & personal development	1709	3.631	.2	2.889	4.346
Clear objective	1709	3.804	.154	3.217	4.5
Creativity & innovation	1709	3.273	.238	2.231	5
Fair reward & punishment	1709	3.296	.184	2.698	4.173
Managerial feedback	1709	3.533	.188	2	4.233
Pay satisfaction	1708	3.494	.233	2.666	4.336
Psychological safety	1709	3.509	.245	2.526	5
Quality supervisor	1709	3.786	.182	2.667	4.562
Quality upper management	1708	3.032	.275	1.941	4.261
Recognition perception	1709	3.112	.22	2.286	4.161
Skills match	1709	3.316	.204	2.484	4.406
Well-being	1709	3.603	.198	1	4.452
Co-workers' performance	1709	4.04	.155	3.275	5
Non-verifiable	445	.285	.452	0	1

Table A2: Summary statistics: United States FEVS responses (individual level data)

Variable	Obs	Mean	Std. Dev.	Min	Max
Intrinsic Motivation	3836288	4.261	.669	1	5
Autonomy	3831790	3.284	1.039	1	5
Adequate resources	3836274	3.383	.932	1	5
Career & personal development	3836453	3.716	1.013	1	5
Clear objective	3836456	3.879	.808	1	5
Creativity & innovation	3834451	3.322	1.094	1	5
Fair reward & punishment	3835816	3.339	.885	1	5
Managerial feedback	3774688	3.667	1.173	1	5
Pay satisfaction	3734522	3.517	1.164	1	5
Quality supervisor	3805922	3.905	.968	1	5
Quality upper management	3704510	3.107	1.223	1	5
Recognition perception	3796346	3.134	1.079	1	5
Skills match	3739430	3.445	1.203	1	5
Well-being	3835643	3.708	.916	1	5
Workplace safety	3763233	3.915	.939	1	5
Intention to leave	3510408	.278	.448	0	1

Table A3: Summary statistics: Western Australia EPS responses (individual level data)

Variable	Obs	Mean	Std. Dev.	Min	Max
Intrinsic Motivation	22028	4.033	.88	1	5
Autonomy	22116	3.761	1.037	1	5
Adequate resources	21736	3.945	1.063	1	5
Career & personal development	22023	3.338	1.212	1	5
Clear objective	22098	4.362	.78	1	5
Ethics promotion	21934	4.127	.962	1	5
Fair reward & punishment	21083	3.276	1.289	1	5
Quality upper management	22056	3.443	1.135	1	5
Recognition perception	21934	3.56	1.26	1	5

Other Dependent Variables

As a careful reader of the pre-analysis plan will note, the paper focuses on intrinsic motivation despite the fact that the pre-analysis plan specified a series of motivational variables. This is for ease of the narrative, not because intrinsic motivation provides substantially different results. Below are a series of tables showing the point estimates for the main motivation and management practice analysis across a range of dependent variables – the results are substantively identical.

Tables A28 to A35 provide the results analogous to those that undergird Figure 2 in the main paper, except the dependent variable is now employee inclusion, job satisfaction, organizational pride and WPI-Enjoyment instead of intrinsic motivation.

Table A28: The estimated effects of management practices on employee inclusion with survey, agency, and time fixed effects for surveys with agency-level data (1 of 2)
